

## Sacramento Regional Affordable Housing Summit 2015 Event Sponsorship

Join leaders from throughout the Sacramento region as we promote affordable housing as the foundation to healthy, sustainable communities. This one day summit will highlight the importance of affordable homes as the foundation for improving health outcomes by enhancing the built environment and neighborhood conditions, throughout the Sacramento Region. As the foundation to healthy communities, having an affordable place to call home can help reduce health disparities, improve children's educational & mental health outcomes, and reduce local government costs on programs and services that are used as a safety net for those living on the brink. We will discuss systems change efforts and best practices in affordable housing that require cross community coordination and facilitation by engaging community leaders from multiple sectors, such as government, business, public health, environmental advocacy, and transportation.
